

THE INSIGHT ADVANTAGE:

White Glove Service

Save hundreds of administrative hours and headaches by engaging Insight Risk's White Glove Service team to manage risk control technology design, procurement, implementation, and monitoring.

Partnering with Insight Risk means significantly reduced frictional costs and hassles, allowing project teams to focus on the successful and timely completion of each project.

Steps To Take		Going It Alone
1 Solution Design	Customized, turnkey solutions using industry-leading, pre-approved, vetted technology providers.	Extensive research and interviews needed to find providers that meet insurer or project requirements.
2 Logistics	Seamless coordination, a single point of contact, and one contract governing all tech-related activities and payments.	Manage all follow-ups, negotiate separate contracts, and handle multiple vendor payments for each IoT device.
3 Installation and Training	End-to-end installation, technology setup, and site team training managed and coordinated by Insight Risk.	Coordinate lead times, deployment details, and compatibility across vendors, while trying to avoid system overlaps and project delays.
4 Continuous Support	Continuous monitoring and maintenance with alert support by Insight Risk.	Handle time-consuming tasks from setup to alert response protocols to device maintenance, potentially involving multiple vendors and trades.
5 Project Completion	Equipment removal coordinated with site team to minimize disruption.	Manage equipment removal, returns to vendors, or oversee an internal technology inventory.

The Insight Risk team's proven track record involves hundreds of risk control technology deployments and is backed by 150+ years of construction, technology development, underwriting, and claims experience. Insight Risk leverages our experience on behalf of our customers to deliver significant time and cost savings from project inception to close-out.

Contact us today to learn how Insight Risk's White Glove service team can help you avoid costly water, fire, or theft losses and delay on your next ground-up or renovation project.
